

STOP SUBBING OUT INSPECTION.

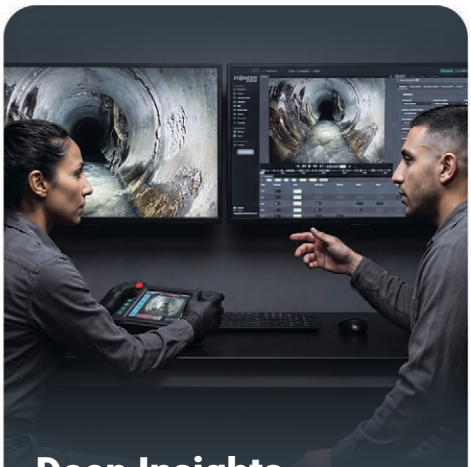

Meet the sewer camera crawler that pays for itself in under a month.†

At SightCore®, we believe big-city performance should be accessible to smaller munis and contractors. Priced roughly 40% less than legacy brands, our dSender™ system gives you pro-grade capability and durability—plus some powerful extras:

- Simultaneous front and rear live HD camera feeds
- Epoxy-free reterms with reusable connector
- Ultra-strong stainless steel construction

Systems starting under **$50K**

Deep Insights, Shallow Learning Curve

With universal software compatibility and pre-existing integrations with POSM, IT Pipes and SewerAI, dSender offers a turn-key solution for PACP reporting, ArcGIS integration, and compatibility with municipal enterprise platforms.

†assuming 2K ft/day at 20 days/month productivity and $1.50/ft outsource rate
